A bit about Triton...

Design, function and reliability

At Triton, we're proud to be known as 'The UK's Shower company'. Having produced expertly engineered, innovative shower designs for the British public since 1975, we've been an important part of your first thing routine for over 40 years.

We want that morning routine to be a great experience, which is why every Triton shower is expertly designed and rigorously tested.

That way, we've done absolutely everything we can to provide a reliable, enjoyable product that works perfectly every time. All of our showers are guaranteed against mechanical and electrical defects from the day they're fitted, with extra cover available for up to five years too.

Finally: style. We Brits are a fashionable bunch, which is why we take care in producing stylish, eye-pleasing showers for every price range. No matter what your budget, your shower will be a looker!

In this brochure, we are proud to introduce to you our new range of HOST digital mixer showers. All designed to be part of your first thing.

Reasons to choose Triton

1. Full Parts & Labour Guaranteed

All our models are individually tested. Every shower is backed by a full Triton parts & labour guarantee against mechanical or electrical defects.

2. Trusted Triton Service

Once you've bought a Triton product, it doesn't stop there. Our service team of fully trained telephone advisors and engineers provide you with help and support throughout its lifetime, to keep your shower running when you need it.

3. Designed & Built in Britain

We have been at the heart of the nation's bathrooms for more than 40 years. Today, our name stands for the best of British design, engineering and service. We are proud to be the UK's leading shower brand, trusted by the trade and homeowners alike.

4. Easy to Install

All Triton models are expertly engineered and rigorously tested to ensure the highest levels of quality and performance. Our showers are also designed with ease of installation in mind for quick, hassle-free fitting.

5. Next Day Delivery

Exceptional customer service, providing next day delivery.

6. Fit and forget

The Nation's leading brand will back you up so you can simply fit and forget.

See you first thing Britain

Whats your first thing?

In Britain, a shower is like a cup of tea – everyone takes it differently. You've got the singers who love to linger, the go-getters who are out before they've got much wetter, the exotic lot who like it hot and many, many more.

The question is – which shower type are you...?

The first-thing philosopher

This lot are in the shower for ages, but they don't seem to accomplish much. That's because they're too busy reflecting on the more important questions in life, like 'why are we here?' and 'do I look good in shorts?' Ok, so maybe their hair isn't always washed, but their minds are well and truly cleansed. If you're a philosopher, you're going to want to spend more time thinking and less time worrying – which is why our comprehensive 5 year guarantee on HOST is perfect. And with expert engineers on standby should you need them, you can worry about more important things.

The daybreak diva

Maybe you're a Diva. You know the type; the type who likes to sing in the shower. Where most people see a shampoo bottle, the Diva sees a microphone, or a tambourine, or maybe even a Grammy Award. If you're a Diva, you're all about a great performance, which is exactly what you get with a Triton HOST shower. It will hit the right notes every morning – even if you don't!

The early-morning escapist

Escapists are busy people. Maybe they're a mum of four or a workaholic or both! Whatever they do, they look to their shower for a little moment of calm. A few minutes to spend on themselves, and themselves alone. We think they deserve that – don't you? If you're an Escapist, our HOST showers are exactly what you need. They're easy to install, use and maintain, and bound to keep those stress-levels down!

However you like your shower, our new HOST has been designed to give you the power at your fingertips to create your perfect shower. Hot, cold, refreshing or relaxing, the choice is yours.

3 Beautiful finishes to suit any bathroom

Ideal for injecting a little high-tech into your first thing, digital showers blend first rate performance with cutting edge design.

A digital shower should be the first thing on the shopping list for tech savvy shower users. Stylish, contemporary and highly personal. A wide range of mix-and-match accessories is also available to create the look you desire.

There's a digital option for every type of home hot water system including those with a combi boiler. Plus you can choose a single or dual outlet which includes a diverter to overhead shower or handset or both

Sian Astley - moregeous.com

"I'm an interior designer helping to make homes more than gorgeous! I've created the spectacular bathrooms in this brochure showcasing the HOST digital shower to give you plenty of inspiration!"

To achieve this look you'll need:

Shower choice

Create the perfect shower for your bathroom with the HOST digital mixer

Finishes

Choose from three colours. Sleek Black and Cloud Grey both with a satin dial or Crisp White with a chrome dial for a touch of sparkle. Select either a black or blue display screen background.

Outlets

The HOST can supply either a single outlet or two outlets simultaneously and so offers a great alternative to a standard diverter mixer shower. Choose from our range of appealing wall or ceiling fed shower accessories to complete the look.

Locations

Wireless so you are free to position the spray proof shower controller anywhere in the bathroom (within 10 metres of the mixer box). Also, no wires make it easy to upgrade any existing digital mixer shower. For those who prefer to have a wired option, a 10m cable is supplied to run behind your new chosen tiles.

Systems

There is a HOST digital mixer shower for every type of hot water system. As we have options for high or low pressure, that means the HOST range is suitable for combi's, mains fed, cylinders and gravity fed cylinders.

Accessories

Whether the décor is understated or bold, HOST can be selected with a choice of Mix & Match fixed shower heads, secondary handsets and holders to complement any scheme. Alternatively, for simplicity opt for an All-in-One pack which brings together the most popular combinations.

Shower comfort

The HOST digital mixer puts you fully in control of your showering experience

Tailored

Configure your shower using the tamperproof set up menu. Select either a Black or Blue display screen background, choose your outlet icons, default outlet and select a maximum shower temperature and time if desired.

Intuitive

Customisable presets store your favourite shower settings. Simply press one of three presets to go straight to your preferred shower.

- 'Just shower' provides regular shower settings
- 'Relax' offers a gentle spray (e.g. for rinsing)
- 'Energise' offers a powerful spray (e.g. post workout).

Satisfying

Superior flow rates and precise temperature control. Simply fine tune your shower using 16 temperature and 10 flow levels and over-save your preset when you find the sweet spot. Customising your shower has never been easier with Triton's HOST.

Reassuring

The full text, full colour, easy to read display confirms the selected preset at start up and shows temperature and flow settings. Perfect for bleary eyes first thing.

Tranquil

The HOST digital mixer is silent running, even the pumped low pressure version that uses new quiet motor technology. So whether you're a sun-up survivor or early morning escapist, you are free to shower any time of the day or night.

Effortless

Optional portable wireless remote start/stop with warm up function so you can turn on the shower while you grab a bit longer in bed. The warm up is completed in minutes and automatically stops should you return to the land of nod.

|| This pink hue theme features beautiful pink wallpaper with black swan pattern, the black accents enhancing a really feminine colour like pink, peach or watermelon ||

- Interior Designer Sian Astley

To achieve this look you'll need:

- HOST White digital shower controller
- HOST single outlet mixer box (eg in roof space or cupboard)
- HOST remote start stop
- Traditional Rose shower head 300mm
- Circular ceiling arm 200mm

SHOWER ACCESSORIES....

HOST mix and match

Simply follow the steps to configure your perfect shower with a variety of styles to suit your bathroom.

If you want a single outlet use steps 1-3 or 1,4 & 5.

If you want a multi outlet then use steps 1-5.

Step 1

Pick a HOST controller style:

HOST Black Digital Shower

HOST Cloud Grey Digital Shower

HOST White Digital Shower

See pages 14-15 for HOST codes

Step 2

Pick a fixed shower head:

Circular 200mm
Ref: TSHFISABCH

Circular Thin
Ref: TSHFCIR200CH (200mm)
TSHFCIR250CH (250mm)
TSHFCIR300CH (300mm)

Square 200mm
Ref: TSHFKELSCH

Square Edge Thin
Ref: TSHFSQ200CH (200mm)
TSHFSQ250CH (250mm)
TSHFSQ300CH (300mm)

Traditional 200mm Rose
Ref: TSHFTRAD200CH

Step 3

Pick a ceiling or wall arm:

200mm Circular Ceiling Arm
Ref: TSARMCIR200V

400mm Circular Wall Arm
Ref: TSARMCIR400H

200mm Square Edge Ceiling Arm
Ref: TSARMSQ200V

400mm Square Edge Wall Arm
Ref: TSARMSQ400H

Ceiling Fed Riser
Kit Circular
Ref: TSKFCRRCIR

Step 4

Choose a handheld shower head:

1 Position Circular
Microphone
Ref: TSHMAMBICH

1 Position Circular
Ref: TSHUMIACHR

5 Position Circular
Ref: TSHM8RCCHR

1 Position Square Edge
Microphone
Ref: TSHMELLICH

1 Position Square Edge
Ref: TSHMKATICH

1 Position Classic
Ref: TSHMTRADICH

Step 5

Choose a riser rail or wall holder:

Slender
Ref: TSKKIANCH

Circular
Ref: TSKADAM2CH

Square Edge
Ref: TSKCALLCH

Circular
Wall Holder
Ref: TSHHCIRCHR

Square Edge
Wall Holder
Ref: TSHHSQCHR

Circular Integrated
Ref: TSHHWOCIRCHR

Square Edge
Integrated
Ref: TSHHWOSQCHR

Choose a hose outlet if integrated option (above) is not selected:

Circular
Hose Outlet
Ref: TSWOCIRCHR

Square Edge
Hose Outlet
Ref: TSWOSQCHR

Finally, add a hose:

1.25m Ref: TSHG1203
1.5m Ref: REHOSE150C
1.75m Ref: TSHER103
2m Ref: TSHG1266

HOST'S mixer unit explained

Simply connect to a fused spur using the supplied 1m flying lead

The mixer unit is fastened to a flat surface using the four external fixing lugs

For brand new bathrooms, a flow restrictor can be fitted in the outlet(s) to achieve the required water efficiency for Building Regulations Part G and the Home Quality Mark. 9 l/min restriction is popular offering a good balance of water power and efficiency

Simply push pipe into the supplied push-fit connectors

Push-fit connectors with integral isolation valves

To achieve this look you'll need:

- HOST Black digital shower controller
- HOST multi outlet mixer box (eg in roof space or cupboard)
- Circular shower head 200mm
- Circular ceiling arm 200mm
- Circular 5 position hand set
- Slender riser rail
- 1.5m Chrome hose
- Circular wall outlet

Technical information

HOST Digital Shower Controller:

- Wireless or wired shower controller so you are free to position on the wall of your choice
- Splash proof IPX4 rated shower controller can be located anywhere
- Full text, full colour TFT digital display showing temperature & flow settings
- Three customisable presets to go straight to the preferred shower setting
- Alternatively simply over-save settings using 16 temperature and 10 flow increments
- The shower controls are powered by 3x AA batteries (lithium recommended)
- Alternatively, route a 10m low voltage cable (supplied)

HOST Mixer Box:

- Digital mixer showers for every type of system including combi's
- Choice of single or dual outlet models
- Silent running using a quiet motorised shuttle valve for temperature control
- Even the LP pumped version is silent running, using new digital brushless quiet motor technology
- All water connections include push-fit fittings with isolation valves
- Flying lead supplied fitted
- Sleek and compact design

HOST Remote Start/Stop (optional)

- Portable wireless shower control - locate on a bedside table or on the supplied magnetic wall mount
- With additional warm up mode to bring the shower up to temperature before switching off so it's ready to use.
